

Remarks:

Reconsideration of the application is respectfully requested.

Under the heading "Claims Objections", the Examining Attorney notes that the claims are lengthy and uneasy to follow. Applicant has carefully reviewed the claims and has made some small changes to make the claims more consistent and easier to follow. Most of the language is just hardware connections, although lengthy, is easy to follow. In regards to rewriting the functional language of the control device, the rewrites were worse than the original and Applicant wishes to maintain the original language.

Under the heading "Claims Rejection - 35 USC § 112" on pages 2-3 of the Office Action, claims 64 and 65 have been rejected for failing to comply with the written description. Claims 64 and 65 have been canceled and therefore this rejection is now believed to be mute.

U.S.C. § 102(e) as being fully anticipated by U. S. Patent No. 4,850,043 to Winston (hereinafter Winston). Claim 64 has been canceled and therefore this rejection is now mute.
